Select or Enter the Signer Name from the Drop List

When should I use this Javascript?

Scenario 1:
The document has 2 locations for signature fields where 1 signer has to be selected or can be manually entered for each position and the first selected signer should not appear in the second Drop List.

The Signer name can be manually entered in any of the Generic Party Names. The entered name will populate in the Drop List.

Refer to Example 8a for Scenario 2.

Refer to Example 8a additional reference related to "**What is the expected flow of this document in eSign?**"
