# MIGRATE HIGH-COST TRANSACTIONS
TO SELF-SERVICE

AUTOMATE WITHOUT COMPROMISE

As the cost of transactions soar, how can you migrate to more efficient self-service channels while still delivering a personal touch? **With GENIX.**

GENIX integrates kiosks directly to your banking core, allowing for full transaction capabilities and real-time client access to funds. This kiosk solution helps reduce overhead costs by minimizing the reliance on staff to complete costly simple transactions.

Plus, with assisted-service and full-service functionality, GENIX helps you migrate to more efficient channels without sacrificing the personal touch needed to engage clients. You can meet clients where they are while still gradually introducing self-service in your branches.

FULL TRANSACTION SET CAPABILITIES

SELF, ASSISTED & FULL-SERVICE CAPABILITIES

CHOICE OF BRANDS & HARDWARE

GENIX

Limited self-service transaction capabilities and lack of integration is the #1 reason self-service initiatives fail — it's time to change that with **GENIX**.

TRANSACTION SETS
