

Kinective Access™

## Securely Share Hardware

“

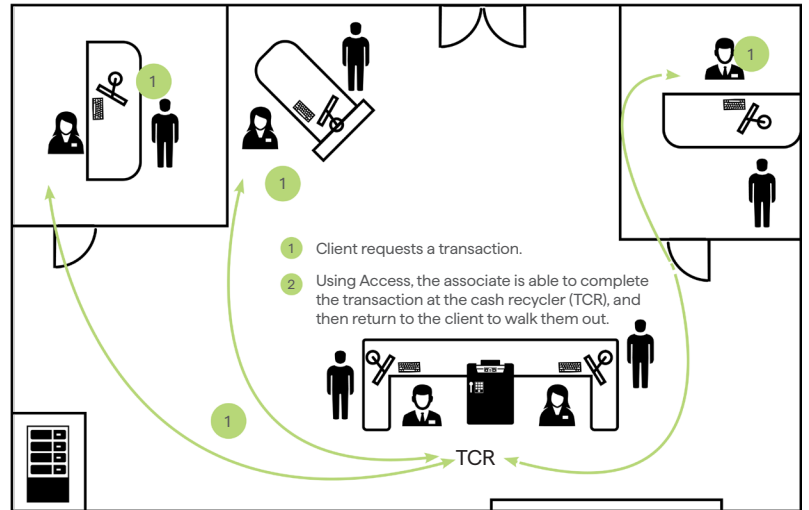

Access has been a huge time saver. Tellers don't have to log in and out of multiple locations, and we no longer have to set up a workstation for every individual teller.

Pioneer FCU

## Why Access?

Allow all branch associates to perform cash transactions from anywhere, helping to maximize efficiency of staff and technology through shared transaction points.

Access is a game-changing tool that drives the future of retail banking. Named the Best New Fintech Solution of the Year, Access can help platform staff serve clients from start to finish on shared cash-devices. They can perform teller transactions whether they are standing next to a device, working in an office, or greeting clients at the lobby.

Let's see how Access can improve your efficiencies and reduce costs by allowing you to do more with less.

# Do more with less with Access

Access implementation provides multiple options for cutting costs. Whether you want to make small incremental FTE changes or build a new branch and optimize FTE and hardware costs, Access gives you choices. **Which works best for you?**

## OPTION 1

**Conservatively reduce FTE costs annually.**

**Annual return on investment**

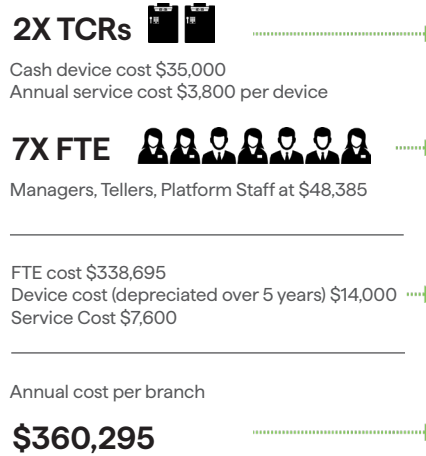

If everyone can handle transactions, you can reduce specialized roles and staff requirements. Plus, with all staff serving clients, rehiring may be optional when someone leaves. With superior service and streamlined processes, your staff and budget thrive.

## OPTION 2

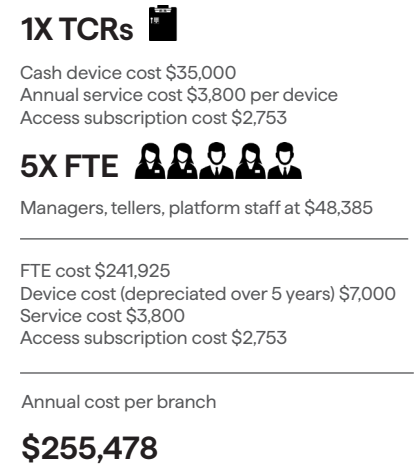

**Rework your branch model.**
